

Dear Sir / Madam,

The European regulation RoHS (Restriction of Hazardous Substances) n°2011/65/UE, modified by the directive 2015/863/EU of March 31st 2015, limits the use of certain dangerous substances in the electric and electronic equipments.

The maximum levels allowed for these substances are :

- ✓ Cadmium (Cd) : 100 ppm (0,01%)
- ✓ Chrome hexavalent : (Cr6 +) : 1000 ppm (0,1%)
- ✓ Mercure (Hg) : 1000 ppm (0,1%)
- ✓ Plomb (Pb) : 1000 ppm (0,1%)
- ✓ Polybromobiphényles (PBB) : 1000 ppm (0,1%)
- ✓ Polybromodiphényléthers : 1000 ppm (0,1%)
- ✓ Phtalate de bis-(2-éthylhexyle) (DEHP) : 1000 ppm (0,1%)
- ✓ Phtalate de benzyle et de butyle (BBP) : 1000 ppm (0,1%)
- ✓ Phtalate de dibutyle (DBP) : 1000 ppm (0,1%)
- ✓ Phtalate de diisobutyle (DIBP) : 1000ppm (0,1%)

By the present document, we confirm that all the products used by SOMERS comply with this RoHS regulation. The products do not contain any of these hazardous substances in concentration above the allowed limits, except for the lead-alloys where the lead-content is determined by the norms.

Julien DAUTHON
